

Access to your files on mcgreg and also potential for vmware

- if you want your **source** files from mcgreg then please email me and I'll email them to you
- here is a discussion about vmware and touchmap/touchgui which might be helpful
- I am also happy if you want to complete your coursework using a mixture of Python3 and pseudo code
 - for example your pseudo code could describe the changes you would like to make at the appropriate places in the original code
 - you can also draw desired screen designs and submit those instead of the screenshots of the running program
- nobody will be disadvantaged
- here is a short lecture/tutorial on vmware (in case you want to use it) [slide 2
gaius](http://floppsie.comp.glam.ac.uk/download/avi/game-tools/lecture-</div><div data-bbox=)

Access to your files on mcgreg and also potential for vmware

- [vmware info](http://floppsie.comp.glam.ac.uk/Southwales/gaius/web/vmware.html) (<http://floppsie.comp.glam.ac.uk/Southwales/gaius/web/vmware.html>)
